

ELEVATE! HEALTHCARE™

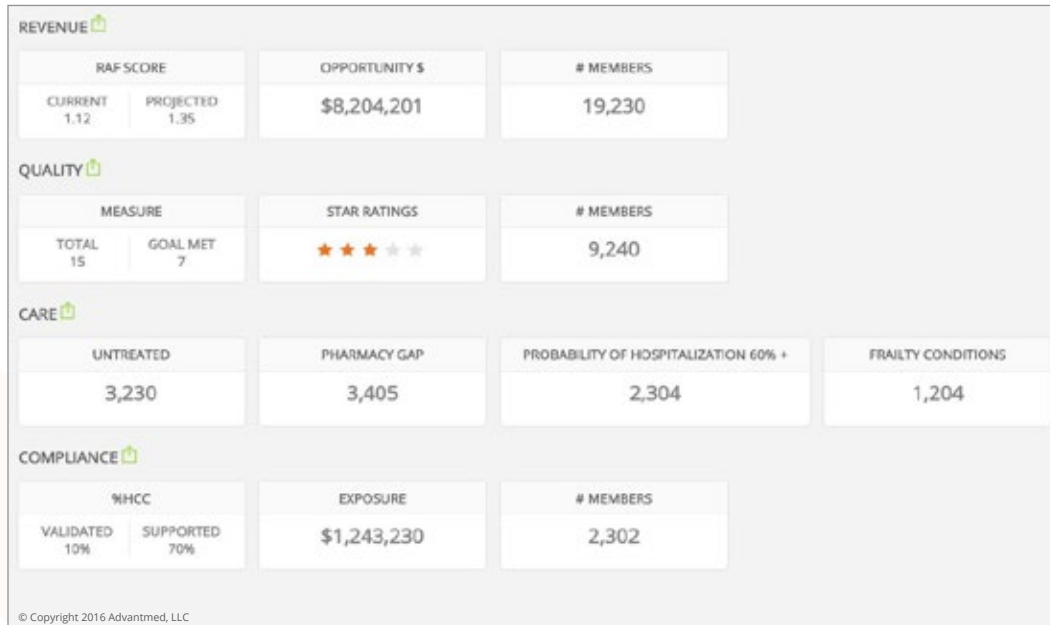

Advantmed's singular objective is to help our clients optimize revenue and quality. We accomplish that objective by using our proprietary health information management platform, ELEVATE! Healthcare™. Advantmed partners with managed care organizations to deliver the optimal combination of capabilities unique to each organization's objectives, including risk analytics (ELEVATE! Risk Insights™), a software containing NCQA-certified HEDIS® measures, medical record retrieval, HEDIS® abstraction, risk adjustment coding, compliance and data validation services, member engagement, provider education and professional services.

We partner with MCOs to ELEVATE!™ revenue and measured outcomes using the optimal combination of solutions, including:

- Risk Analytics
- Software containing NCQA-Certified HEDIS® Measures
- Medical Record Retrieval
- HEDIS® Abstraction
- Risk Adjustment Coding
- Data Validation/Mock RADV
- Member Engagement
- Provider Education
- Professional Services

ELEVATE! HEALTHCARE™

Each of the products and services comprising the ELEVATE! Healthcare™ platform contribute to Advantmed's innovative philosophy that health plan management can be rationalized into four subject areas: revenue, quality, care and compliance. The ELEVATE! Healthcare™ platform provides insight into the status of each of these four domains and the ability to pursue resolution of deficiencies with optimal results. First, resolving all gaps in clinical data and then by facilitating appropriate and cost-effective member and provider engagement activities to resolve service and documentation gaps.

Advantmed, LLC is a healthcare information management company that helps health plans and managed care organizations optimize revenue and improve quality outcomes.
