

# ELEVATE! QUALITY INSIGHTS™

## Advantmed's cloud-based software containing NCQA-Certified HEDIS® Measures

The quality optimization process begins when ELEVATE! Quality Insights™ calculates all HEDIS® administrative measures as well as systematic hybrid samples for all hybrid-eligible measures included in NCQA's Technical Specifications.

ELEVATE! Quality Insights™ also identifies service gaps for all product lines, including Medicare, Medicaid and Health Insurance Exchange plans. Uniquely, our ELEVATE! Healthcare™ platform builds off the information produced by our software which contains NCQA-certified HEDIS® measures or output from other HEDIS® reporting tools.

### Features of our end-to-end quality improvement solution:

- Fully-managed import of all key health plan data
- Produce all HEDIS® measures
- Produce statistical samples for hybrid-eligible measures
- Specify chase logic for prioritization of medical record retrieval
- Support submission of IDSS
- Substantiate MRRV
- Monitor progress of HEDIS® project and quality improvement activities through monthly runs
- Identify service gaps from selected measures
- Member engagement services to close gaps
- Continuous Quality Optimization programs
- Record retrieval services
- Clinical abstraction services

The screenshot displays the ELEVATE! Quality Insights dashboard. The interface includes a navigation menu with options like HOME, RATES, MEMBER, PROVIDERS, DATA MANAGEMENT, REPORTS, and ANALYTICAL REPORTS. A search bar and user profile (admin) are visible at the top right. The main content area features a 'FILTER' sidebar on the left with sections for 'Saved Filters', 'Reporting Year' (2014, 2015), 'Methods' (Admin, Hybrid, Both), and 'Measures' (Product Line, Product, Domain, Watchlist). The central table lists various quality measures with their current rates, NUP/DEN, targets, and watchlist counts.
